

NISHA KADAM

Data Engineer

✉ nishamore1796@gmail.com ☎ 9130721182 📍 Pune, India 📅 17th July 1996

📄 PROFILE

Experienced Data Engineer with 4+ years of proven expertise in leveraging data-driven insights to fuel business growth. Proficient in statistical analysis, data visualization, and predictive modeling using SQL and Python. Skilled in Big Data technologies including Hadoop, MR/YARN, Sqoop, with proficiency in Linux and shell scripting. Strong communicator and team player, adept at translating complex data into actionable insights for stakeholders.

📁 PROFESSIONAL EXPERIENCE

Maveric Systems, Software Engineer

2023 – present | Pune, India

UPS Logistics, Financial Admin Assistance

2021 – 2022 | Pune, India

Wipro Pvt. Ltd, Data Analyst

2017 – 2021 | Pune, India

📁 PROJECTS

Identifying Loan Default/not Default Customers

The project aims to analyze customer data to build a predictive model that can accurately identify whether a customer is likely to default on a loan or not. By leveraging historical data and applying machine learning techniques, the objective is to identify patterns and factors that are indicative of loan default. This helps financial institutions in making informed lending decisions, minimizing the risk of defaults, and improving overall portfolio quality.

Payment Fraud Detection

Analyzing the data extensively, on multiple levels and aggregations, for building a sample dataset containing similar distribution of Non-Fraudulent transactions and Fraudulent transactions.

Customer Segmentation

It is the practice of dividing a company's customers into distinct groups based on shared characteristics such as demographics, behaviors, needs, or preferences.

🎓 EDUCATION

Bachelor of Computer Application (BCA), Savitribai Phule Pune University

2013 – 2016 | Pune, India

Higher Secondary Certificate (HSC), Maharashtra Board

2011 – 2013 | Pune, India

Secondary School Certificate (SSC), Maharashtra Board

2010 – 2011 | Pune, India

🧠 SKILLS

Languages: Python, SQL

Big Data Technology: Spark, Pyspark, Hadoop, Hive

Frame Works: Apache Spark, Pandas

Editors: PyCharm, Jupyter Notebook, VS Code

Version Controls: GitHub

Project Methodologies: Agile, SDLC, Jira

Databases: MySQL CSV, SQL

Cloud Technologies: Cloudera

Visualization: PowerBI Matplotlib, Seaborn, Plotly

Web Technologies: HTML

Scripts: Python

Operating System: Linux, Windows

📄 CERTIFICATES

Python Mega Course | MySQL Bootcamp |
Spark and Python for Big Data with PySpark |
Hive to Advance Hive | Linux

🌐 LANGUAGES

English | Hindi | Marathi
